## Deadlock At 14-14 For Devils & Rams

Before the biggest crowd of foot ball fans ever to witness a game in Pahokee, the Pahokee Blue Devils tied the Belle Glade Golden Rams at 14-14 in one of the finest displays of foot ball to be seen on Laif Field.

The tie still gave the Rams, undefeated in their first nine games, the Suncoast Conference championship. Pahokee finished the season with a 7-2-1 record.

Peacock, the 190-pound junior, guided Web Pell's singling offense beautifully against a Belle Glade defense which had earned the Rams the No. 5 spot in the state.

In other Turkey Day eve games Seacrest walloped Lake Worth 27-7 while Forest Hill defeated Palm Beach and Okeechobee rolled up 51 points over Stuart's goose egg.

So much emphasis is being given these days to new developments in the space race that we're apt to lose sight of significant achievements in other fields. One example is an important breakthrough that has been made in crop research. Another is a new process sharply reducing the time required for making a ton of steel.

The University of Nebraska has announced the development there of a new hybrid wheat which yields about 25 per cent more than current varieties. In one test, the yield was 120 bushels per acre. It probably will be some time before the new wheat is available for growers. It has been in the research stage for quite awhile. But it is possible that, once it has been proved out, farmers could grow enough for American needs on about one-third less acres than are now planted.

You can see, therefore, why agricultural economists have been talking about the probability we'll be needing 50 million fewer acres for agriculture in coming years.

At Cleveland recently a big steel company turned out a 235-ton batch of steel in a record-breaking 40 minutes in a basic oxygen furnace. This is a comparatively new type of facility which Time magazine reports was invented in Austria.

The 40-minute time compares with about 8 hours required in an open hearth or other melting process. The new oxygen furnace costs about half as much to build as an open hearth. It is expected to lower production costs about \$3 a ton.

You can expect to see, all the big steel companies utilizing this type of equipment as they strive to put their industry in a position to meet foreign competition. And its possible farm equipment costs

will be held to a steadier trend.

Labor costs are an important item in agriculture's expenses for production, and the trend has been steadily upward in recent years. Two recent items which came to my attention give an interesting picture of what's happening on the labor front in other fields.

One is a report by Associated Industries of Florida detailing some of the terms on which the Teamsters Union has been bargaining for a new contract with about 1,500 trucking firms in the New York City area.

Included among things sought by the union are: 35 hours of guaranteed pay per week, even if no work is available; one day's pay plus two days off for any work on Saturday, Sunday or any one of 12 holidays, including Columbus Day; pay for all holidays, including member's birthday; a week off with pay in case of death in the family; full chiropractic and dental care while employed; and after retirement: a pension of \$200 per month after 20 years of work; and employee to supply, while member is on the job, safety shoes, winter coat, gloves, jacket, shirt and pants.

The second item is the strike called by the Newspaper Guild against the country's largest newspaper—the New York Daily News. The Guild asked a straight 10 per cent pay increase, a 30-hour work week and various fringe benefits.

Note the work week demands by both the Teamsters and the Guild. Both mean higher costs. Both confirm the trend I've mentioned before toward a work week shorter than 40 hours.

Business economists estimate that a reduction in the basic work week from 40 to 35 hours, without a reduction in pay, could increase labor costs in business by as much as 25 per cent. If the nation maintains its current yearly rate of increased productivity.

In a recent issue of its "Washington Report," the U. S. Chamber of Commerce notes that many businessmen are under the impres-

sion that business "has a right to make a profit."

"Nothing could be farther from the truth," says the Chamber. "The only right which business has in a free enterprise economy is the right to run risks in the hope of earning a profit. As long as this freedom remains unabridged society is giving business all it can ask."

When you need the statistics concerning business failures, it's pretty obvious that a lot of people misjudge the risks they're taking when they start a new business, or try to keep one going on an out-moded basis.

The risks in business, and agriculture, too, have become more complicated in recent years. It takes a lot of good judgment—a very important factor in sound management—to evaluate the risks in both fields of endeavor.

## Brownie Troop 113 In Regular Meeting

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed  $4\%$  each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn their new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my E Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $1\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

## Betty Jean Clark Wed To J. H. Gandy

Miss Betty Jean Clark, daughter of Mr. and Mrs. Herman Cecil Clark of Pelican Lake, became the bride of Airman 1-C John Hilton Gandy, son of Mrs. Mamie Gandy of Pahokee, in a candle light ceremony at the Canal Point Baptist Church, November 16, at 7:30 p. m. with Rev. Robert A. Shelley reading the vows.

Traditional wedding selections were presented by Mrs. Roberto Arrieta, soloist, accompanied by Miss Myra Jones, pianist.

The bride given in marriage by her father, wore a floor-length gown of white silk organza over satin, fashioned with an embroidered bodice, sabrina neckline and bracelet-length sleeves. The embroidered panels of the skirt ended in a chapel train. Her veil of French illusion was attached to a headpiece of orange blossoms and pearls, and she carried a white prayer book topped with white orchids and white pompons.

The bride's attendants were Miss Sylvia Maxine Gandy, sister of the bridegroom, maid of honor; Mrs. James Orlando, matron of honor, and Miss Velma Williams, bridesmaid. They wore street-length dresses of peacock blue silk organza over satin, styled identically, with high necklines and cap sleeves. They carried nosegays of yellow roses.

Charles Brown served as best man for the groom. Ushers were Herman Earl Clark, brother of the bride, and Lowell Hughes, cousin of the bride.

For her daughter's wedding, Mrs. Clark wore a coral silk sheath dress with matching accessories and an orchid corsage. Mrs. Gandy, mother of the groom, wore a beige brocade sheath with a fitted jacket and matching accessories and an orchid corsage.

At the reception in the social hall of the church, Miss Carley Bracewell and Mrs. William H. Thippen presided at the punch bowl, while Miss Betty Echols and Miss Peggy Turner served the wedding cake. Miss Gail Reeves was in charge of the bride's book.

For traveling the bride wore a three-piece brown suit, leopard hat and used the orchid from her bride's bouquet for her corsage.

Following a wedding trip in Florida and northern Alabama, Airman Gandy will leave on December 8 to report for overseas duty in Germany, where he will be stationed at the Spangdahlem base. Mrs. Gandy, who will remain with her parents at present, plans to join her husband later.

## It happened 100 YEARS ago

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862... the same year that

IN FLORIDA, citizens were evading the blockade of the Union Navy, by using small boats to bring in essential weapons and supplies for the Confederate armies. After each successful blockade run, many men celebrated with well-earned glasses of beer.

For then, as now, beer was the traditional beverage of moderation. But beer means more than enjoyment in our state. The Brewing Industry contributes more than 25 million tax dollars to Florida each year — money that helps support our hospitals, schools, and highways.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.

## Christian Science Group Of Canal Point

How spiritual understanding of God as Soul helps mankind will be brought out at Christian Science services Sunday.  
 "Soul and Body" will be the subject of the Lesson-Sermon. From Matthew will be read the account of the healing by Christ Jesus of the centurion's servant, which includes this verse: "And Jesus said unto the centurion, Go thy way; and as thou hast believed, so be it done unto thee. And his servant was healed in the selfsame hour."  
 From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this selection will be read (p. 210): "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation."

*"Today we need a nation of Minute Men . . . .  
citizens who regard the preservation of freedom  
as a basic purpose of their daily life . . . ."*

**—JOHN FITZGERALD KENNEDY**

10 days after his inauguration  
as the 35th President of the  
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unremitting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

**BUY U. S. SAVINGS BONDS**

For 50 years America's newspapers have published Savings Bonds ads as an aid to the Government. The Treasury Dept. is grateful to the Advertising Council and all the newspapers for their patriotic support.
